- ▶ How to live and study at Cardiff, UK, by our incoming Andrew
- ▶ How to study at Bergen, Norway, by Wibke
- ▶ Report on placement experience at Japan by Oshin
- ▶ Study options at Iceland by Mira

Study abroad

Why could it be worthwhile to go abroad?

1. Extend your specific qualification
2. Deepen your language competence
3. Develop your personality
4. Gain intercultural experience
5. Push your career perspectives
6. ... have a nice time!

Go Abroad

- Where to go, what kind of exchange?
- Language?
- Duration, perfect timeslot?

- Funding?
- Entry/visa requirements, vaccination recommendations, insurances?
- Language tests?

- Which courses, which project?
- Recognition towards your degree?
- Study plan after your return?

Go Abroad

Mind-making process:

1. Get information on cooperating institutions via
 - <http://www.geo.uni-bremen.de/> → studies → international exchange
 - join the information talk 😊
 - look independently for a suitable university/place
2. General inquiries regarding an exchange stay are answered by the International Office UB (<http://www.uni-bremen.de/de/studium/starten-studieren/studium-international/>):
!Jour Fixe: please find the dates on this homepage!
3. Make an appointment at S & P Büro (office for study affairs and career perspectives)
4. Apply

Go Abroad

What kind of stay:

1. Study exchange mobility

- Semester/ year abroad
- Summer schools
- Specific course offer (field trips, projects)

2. Internship or professional training

- With a company
- Research project
- Field work

3. Language courses

Study Abroad

Free mover:

- wherever you want and where you are accepted
- needs more effort (time and costs) by yourself
- asking for appropriate funding/scholarship by yourself
- get some help from IO and the S&P-Büro GEO
- recognition of your study record has to be discussed with your home university **in advance**

Study Abroad

Exchange programs (easier, cheaper):

- find a partner university of your Faculty
- join an exchange program like ERASMUS, PROMOS
- benefit from structured steps over the exchange period, supervision at the host university and a part-funding
- recognition of your study record is agreed and assured

Study Abroad

Scholarship and funding

DAAD ERASMUS: mobility grant (540 – 600 € a month), no tuition fees + additional 250 € a month (by extra application) for

- Students with a disability (GdB 20) or higher
- Students with a chronic illness
- Students with a child
- First-time graduates
- Students in employment

Multiple ERASMUS study periods up to 12 months per study level
(Bachelor, Master, PhD)

ERASMUS study and ERASMUS internship periods can be combined
Minimum stay for ERASMUS internships is 2 months.

Our aim is to provide funding for all students. Therefore, depending on the DAAD's allocation of funds, we may again be forced to limit the funding period of the mobilities and thus not be able to fund the entire period of stay. Students should be prepared to finance part of their stay from other sources.

Study Abroad

Scholarship and funding

DAAD PROMOS: mobility grant outside EU (350 – 550 € a month) + additional funding for students with disabilities:

- Study scholarships (1-3 months)
- Internships (1-3 months)
- Language courses (2 weeks – 3 months)
- Subject-related courses (1-6 weeks)

Auslands-BAföG:

worldwide, higher rate for stays abroad, covers travel costs + some tuition fees up to 4500,- €

„+ 1 year“, apply 6 months in advance, country-specific agencies

Scholarship (apply well in advance!):

www.uni-bremen.de/en/studies/starting_your_studies/international_studies/studying-abroad/scholarships-and-funding-opportunities/

ERASMUS +

European mobility program with a structured process with clear rights and duties and concrete advisors

<https://www.uni-bremen.de/studium/starten-studieren/studium-international/studieren-im-ausland/erasmus-studienaufenthalt>

- 1-2 semesters and short term mobility
- Recognition of records (ECTS)
- No tuition fees at the host institution, mobility grant
- Advisory and supervision by the host university
- Limited exchange places at the host institution
- Recognition of study achievements necessary

Requirements

Exchange agreement between both universities

At least 2 semester of studies before the exchange (we recommend the 5th!)

Proof of an advanced language competence in the teaching language (B2)
